

Walmart Entry Program — Buyer Portal User Guide

For: Startup Junkie Consulting team (US-side buyer support) Startup Junkie Consulting team (US-side buyer support) **Portal URL:** <https://www.applywalmart.info> <https://www.applywalmart.info>
Last updated: 2026-05-28 2026-05-28

1. Overview

This portal is the operational hub for the Walmart Entry Program operated jointly by **3Stripe Venture Studio** (3SVS, Korea) and (3SVS, Korea) and **Startup Junkie Consulting** (Arkansas, US). Korean brands apply through the public site, 3SVS handles initial review and contracting, and your team coordinates the US-side activities — buyer introductions, line reviews, P.O. management, store entry. (Arkansas, US). Korean brands apply through the public site, 3SVS handles initial review and contracting, and your team coordinates the US-side activities — buyer introductions, line reviews, P.O. management, store entry.

The portal connects three parties on shared real-time data:

```
Brand (Korea) —|
|→ Same DB, same messages, same documents
3SVS Admin ———| (you see what the brand sees, and vice versa)
|
Startup Junkie —| ← that's you
```

Anything you write (notes, tasks, meetings, document requests) is **immediately visible** to the brand and to 3SVS Admin. Conversely, you'll see brand inquiries and 3SVS notes in real time. to the brand and to 3SVS Admin. Conversely, you'll see brand inquiries and 3SVS notes in real time.

2. Logging in

- 1 Go to <https://www.applywalmart.info>
- 2 Click the **Log in** tab at the top tab at the top
- 3 Select the **Walmart / Startup Junkie** login tab login tab
- 4 Enter your credentials: - **Username:** `louis` (default account) - (default account) - **Password:** `123456` (change immediately — see Section 9) (change immediately — see Section 9)
- 5 You'll land on the **Pipeline** page page

Security note: The default password is for first-day access only. Ask the 3SVS Admin to add an additional account or to reset your password from The default password is for first-day access only. Ask the 3SVS Admin to add an additional account or to reset your password from **Settings → Staff Accounts**..

3. The Pipeline view (your home screen)

After logging in, you see:

3.1 Meeting Requests Panel (top, yellow)

- Only appears when brands have submitted meeting requests awaiting confirmation.
- Each card shows the brand name, proposed title, agenda, and proposed time slots (KST).
- Three quick actions: **Confirm**, **Decline**, **View Brand**.

3.2 Stat summary

- Total brands · Under Review · Phase 1 / 2 / 3 counts.

3.3 Brand cards

- Approved brands appear as clickable cards.
- Each card shows: brand name, type (Direct / Voucher), current phase, contact email.
- **Click anywhere on the card** → opens the full brand detail page.
- **Messages button** (right side) → opens just the message thread modal. Red badge = unread brand messages.

To **refresh** the list, click the list, click **Pipeline** in the left sidebar again.

4. Brand Detail page

Click a brand card → you'll see 10 sections, top to bottom:

#	Section	What it does
1	Header	Brand name, phase, category
2	Phase Management	Click any of Contract / Phase 1 / Phase 2 / Phase 3 / Completed to change the brand's current phase. Updates instantly. Brand sees the same. to change the brand's current phase. Updates instantly. Brand sees the same.
3	Company Information	CEO / Category / Website / Revenue / Email — from the application form

#	Section	What it does
4	Internal Notes	Visible to you and 3SVS Admin only. NOT shown to the brand. Use this for contact history, negotiation notes, internal observations. Notes are tagged per phase (see Section 4.1). Use this for contact history, negotiation notes, internal observations. Notes are tagged per phase (see Section 4.1).
5	Tasks	To-dos assigned to or about this brand. Phase-tagged.
6	Meetings	All meetings — proposed by you, by 3SVS, or by the brand
7	Documents	Brand-uploaded files + your document requests
8	Application & Attachments	The original application form data + any files the brand attached when applying
9	Recent Messages	Last 4 messages, with a button to open the full thread
10	Contracts	Service agreements for 3-party signing

4.1 Phase tabs (under Notes and Tasks)

Above the Notes textarea and above the Tasks list, you'll see tabs: `[General]` `[Contract]` `[Phase 1●]` `[Phase 2]` `[Phase 3]` `[Completed]`

The green dot (●) marks the brand's **current** phase. phase.

- Click any tab → Notes textarea loads notes for that phase; Tasks list filters to that phase.
- Saving a note only affects the selected phase (others are preserved).
- When you change the brand's current phase via the buttons above, the tabs auto-jump to the new phase.

This is how you keep, for example, "Phase 2 buyer meeting prep notes" separate from "Phase 3 line-review feedback."

5. Messages — replying to brand inquiries

Click the **Messages** button on a brand card, OR the button on a brand card, OR the **Open / Reply** button inside the brand detail page. button inside the brand detail page.

A modal opens with the full conversation: - Brand messages appear with the brand's name - 3SVS Admin messages show "3SVS Admin" - Your messages will be tagged "Startup Junkie" - Times are

in KST (Korean time)

Type in the input at the bottom and press **Enter** (or click (or click **Send**). The brand sees your reply in their portal in real time, and the unread badge on their side increments.). The brand sees your reply in their portal in real time, and the unread badge on their side increments.

When you open the modal, all unread messages from the brand are automatically marked as read on your side.

6. Creating Tasks for a brand

From the brand detail page, click + **Add task** in the Tasks section. in the Tasks section.

Form fields: - **Title** (required): e.g., "Submit Item 360 SKU data sheet" - (required): e.g., "Submit Item 360 SKU data sheet" - **Description** (optional): detailed instructions, links, format requirements - (optional): detailed instructions, links, format requirements - **Priority**: Urgent / High / Normal / Low (color-coded) - : Urgent / High / Normal / Low (color-coded) - **Category**: Walmart / 3SVS / Compliance / Internal / General - : Walmart / 3SVS / Compliance / Internal / General - **Phase**: tag the task to a specific phase (or General) - : tag the task to a specific phase (or General) - **Due date** (optional) (optional)

After submit: - The task appears immediately in the brand's portal under their **To-do** menu - The brand checks it off when complete - You see the completion status update in real time menu - The brand checks it off when complete - You see the completion status update in real time

7. Proposing Meetings

Click + **Propose meeting** in the Meetings section. in the Meetings section.

Fields: - **Title** (required) - (required) - **Agenda** (optional) - (optional) - **Proposed times — 1 to 3 slots** in KST (30-minute increments only) - in KST (30-minute increments only) - **Meeting URL** (optional): Zoom / Google Meet (optional): Zoom / Google Meet

The brand sees the proposal with up to 3 time options and picks one to confirm.

When the brand REQUESTS a meeting instead: - It appears in the yellow Meeting Requests Panel on your Pipeline page - You can instead: - It appears in the yellow Meeting Requests Panel on your Pipeline page - You can **Confirm** (pick the final time), (pick the final time), **Decline**, or click , or click **View Brand** for full context for full context

8. Requesting Documents

Click + **Request document** in the Documents section. in the Documents section.

Fields: - **Document name**: e.g., "2026 Q3 SKU Master List" - : e.g., "2026 Q3 SKU Master List" - **Description**: format, deadline, required fields - : format, deadline, required fields - **Category**: Walmart Request / 3SVS Request / Compliance / Product Spec / General - : Walmart Request /

3SVS Request / Compliance / Product Spec / General - **Requested by:** 월마트 (Walmart) / 3SVS / Startup Junkie: 월마트 (Walmart) / 3SVS / Startup Junkie

The brand's Documents tab shows it as **Requested** status. When they upload the file, the status changes to status. When they upload the file, the status changes to **Uploaded**. You can then click . You can then click **Approve** if it meets requirements. if it meets requirements.

9. Contracts — 3-party e-signing

When a service agreement is ready, 3SVS Admin creates a contract for the brand. You'll see it in:

1. The brand's Contracts section in their detail page, **or** 2. By clicking the **Contracts** link in the contract (admin sends URL) link in the contract (admin sends URL)

The contract page has three signature sections: **Brand / 3SVS / Startup Junkie..**

To sign as Startup Junkie: 1. Click the **Sign as Startup Junkie** button in the contract list (only visible when not yet signed) 2. Scroll to the Startup Junkie signature section 3. Choose signing method: - button in the contract list (only visible when not yet signed) 2. Scroll to the Startup Junkie signature section 3. Choose signing method: - **Draw:** sign with mouse/touchpad directly on the canvas - : sign with mouse/touchpad directly on the canvas - **Upload:** upload a pre-prepared signature image 4. Check : upload a pre-prepared signature image 4. Check **both consent boxes:** - I understand this e-signature has the same legal effect as a handwritten signature (under Korean Electronic Signature Act and US E-SIGN Act) - I have read and understood the full agreement 5. Click : - I understand this e-signature has the same legal effect as a handwritten signature (under Korean Electronic Signature Act and US E-SIGN Act) - I have read and understood the full agreement 5. Click **Step 1: Send OTP** — a 6-digit code is sent to your registered email 6. Enter the code (5-minute validity, max 5 attempts) 7. Click — a 6-digit code is sent to your registered email 6. Enter the code (5-minute validity, max 5 attempts) 7. Click **Step 2: Sign** — your signature is locked in — your signature is locked in

After signing, your signature section becomes locked. You cannot re-sign. The lock badge "Signed · Locked" appears., your signature section becomes locked. You cannot re-sign. The lock badge "Signed · Locked" appears.

When all three parties have signed, the contract is finalized: - A PDF is auto-generated with all signatures embedded - SHA-256 hash is calculated and stored - Final PDF URL is added to the contract record - Email notification "contract_completed" is sent to admin

10. Settings — managing your account

Currently the **Settings** menu is only accessible from the 3SVS Admin side. If you need to: - Change your password - Add another Startup Junkie team member account - Deactivate an account menu is only accessible from the 3SVS Admin side. If you need to: - Change your password - Add another Startup Junkie team member account - Deactivate an account

→ Ask the 3SVS Admin (jw@3svs.com) to do it via:) to do it via: **Admin Portal → Settings → Staff Accounts → + Add account** (or (or **Reset password**))

11. Language toggle

The Walmart portal is **English-only by design**. The Pipeline and brand detail pages always render in English regardless of any other state.. The Pipeline and brand detail pages always render in English regardless of any other state.

If you ever see Korean text, it's a bug — please report to jw@3svs.com with a screenshot. with a screenshot.

12. Logout

Sidebar footer → ← **Log out**

Your session is in browser sessionStorage, so closing the tab also clears it. Use the explicit Log Out for shared computers.

13. Troubleshooting

Symptom	Cause / Fix
"Username or password is incorrect"	Check spelling. Username is case-sensitive lowercase. Ask Admin to reset if forgotten.
Pipeline shows "No brands registered yet"	Either no brands are approved yet, or your session expired. Click Pipeline again to reload. again to reload.
Brand card click does nothing	Browser console (F12) will show the error. Most likely an outdated browser cache — Ctrl+Shift+R to hard refresh.
OTP email not arriving for contract signing	Check spam folder. OTP is sent from noreply@applywalmart.info . If the domain isn't yet verified in Resend, it falls back to . If the domain isn't yet verified in Resend, it falls back to onboarding@resend.dev .
"Application not found (no email match)" in brand detail	The brand was added directly without an application form. Not an error — the section is informational.
Meeting time appears wrong	All times are KST (Korea Standard Time, UTC+9). If you're in the US, subtract 13–14 hours depending on Daylight Saving.

14. Key principles

- 1 **Single source of truth:** brands, contracts, messages, tasks, meetings, documents — all in one shared database. No need to email PDFs back and forth.: brands, contracts, messages, tasks, meetings, documents — all in one shared database. No need to email PDFs back and forth.
 - 2 **Phase-aware:** pin information to the right phase so it stays meaningful as the brand progresses.: pin information to the right phase so it stays meaningful as the brand progresses.
 - 3 **Audit trail:** every signature has IP, user agent, session ID, SHA-256 hash stored — defensible under US E-SIGN Act and KR Electronic Signature Act.: every signature has IP, user agent, session ID, SHA-256 hash stored — defensible under US E-SIGN Act and KR Electronic Signature Act.
 - 4 **Brand sees what they should:** Internal Notes are private (admin/Startup Junkie only). Tasks, meetings, document requests, messages are shared by design.: Internal Notes are private (admin/Startup Junkie only). Tasks, meetings, document requests, messages are shared by design.
-

15. Contact

- **3SVS (Korea) — primary operator:** 배종원 (Jongwon Bae) · : 배종원 (Jongwon Bae) · jw@3svs.com
 - **Domain / hosting issues:** ask 3SVS to coordinate (Vercel + Supabase backend): ask 3SVS to coordinate (Vercel + Supabase backend)
 - **Bug reports:** include screenshot + browser console log (F12 → Console tab): include screenshot + browser console log (F12 → Console tab)
